About Us

TATE AND NICHOLSON – A DIVISION OF SOUTHEY CONTRACTING (PTY) LTD

is a South African based specialist contractor of industrial and commercial roof sheeting, cladding, insulation, ventilation, gutters, walkways, lifelines, skylights, specialized roof paint applications and related items. Since inception in 1969, we have successfully carried out contracts all over South Africa, as well as in Algiers, Botswana, Mozambique, Namibia, Zambia, Lesotho, Swaziland, and the D.R.C.

Part of our service delivery includes preparation of workshop drawings, quantity surveying and compiling of bills of quantities, consulting closely with Professional Architects, Engineers and Developers regarding most suitable and cost effective solutions for their developments and projects, etc. We also offer the services of a safety department with qualified and certified personnel to ensure our safety record is kept unblemished.

Not only are we involved in new construction projects, but we also specialize in the refurbishment of existing buildings including the maintenance thereof. This may include repainting of the existing roof or possibly an over roof Ashgrid system.

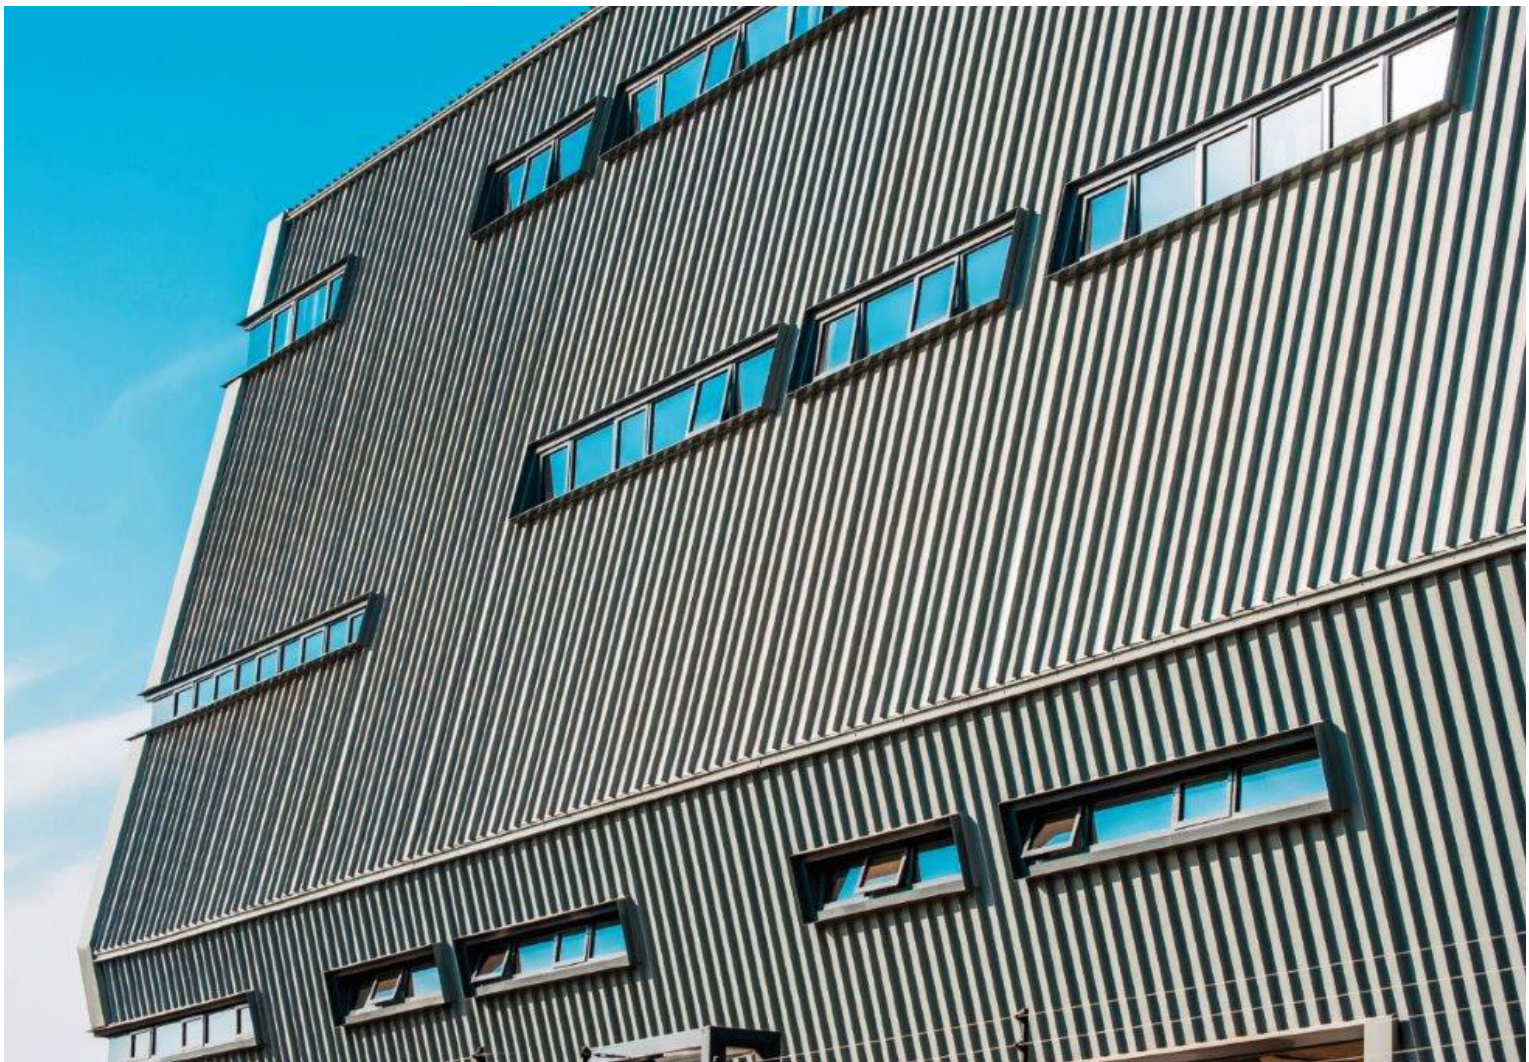

Our installation teams are trained, skilled and experienced to ensure top quality in deliverance and in operating under the strict safety and health requirements demanded of those working on industrial, commercial, mining and associated industries.

All this is backed by the Southey Holdings Group of Companies adding secure knowledge to our clients that they are dealing with a reputable organisation that operates with integrity and continuity.
